COMMENT: The census information above shows good continuity and agreement from decade to decade suggesting Griffin Hardin, born 1774, sired 9 to 10 children from about 1798 when he was age 24 continuing to his wife's departure between 1825 and 30.

From about 1840 to past 1850, a daughter-in-law named Cassendine with her children lived with Griffin Hardin.

GREEN BERRY HARDIN lived in his own house in 1830 census, age 30-40 (b. 1790-1800) with a female 20-30. (He was listed adjacent to Reuben Hardin.) He lived in his own house in 1840 near Griffin Hardin and Archibald Burton (father-in-law). He said he was born between 1810 and 1820. If he was born in 1805 according to his tombstone then he is male 2 or male 3. It is pretty clear to me he is Griffin's son.
